

Geidel Guerra

Where to find me: [LinkedIn](#) [GitHub](#) [Twitter](#)

Who am I?

I'm a self taught "Fullstack Developer" specialized in Laravel, VueJs and TailwindCSS. Hoping to make some games in the future.

I've been learning to code for myself since I was 16. I started with Macromedia Flash 8 offline help. Then I jumped to C++, C#, Java, Python and eventually landed with PHP and JavaScript.

I have experience developing SaaS applications, REST APIs, Third-Party integrations (Facebook, Twitter, Google, LinkedIn, YouTube, Stripe) and basic websites using NuxtJs and Vue.

I have some experience with AWS and DevOps. I use Digital Ocean for my personal stuff.

I have basic knowledge of Git. I use GitHub for all my personal and company projects.

I've been using Ubuntu Desktop for about 6 years. I use ZSH, Kitty and VSCode.

I know about Jira, Trello, ClickUp and other project management tools. Also know a little about SCRUM methodology and have been using it for a while.

Proficient in English, native Spanish speaker.

Skills

The score's scale is 1 to 5. 1 been almost no experience and 5 been a lot of experience

Laravel - 5

VueJs - 4

InertiaJs - 4

DevOps - 4

Git - 3.5

Laravel Vapor - 3.5

Laravel Forge - 3.5

Laravel Envoyer - 3.5

NodeJs - 3

AWS - 3

Ansible - 2.5

MySQL - 2.5

Languages

Spanish - Native

English - Proficient (C2)

Toolkit

OS - Ubuntu 22.04

Editor - VSCode

Terminal - Kitty, Tmux

Shell - ZSH

Projects
